

Crete Township Road District

Burville at Exchange Street Study

The Will County Division of Transportation (WCDOT) invites you to attend the second Public Information Meeting for the Intersection Improvement Study of Exchange Street and Burville Road.

Located near the Village of Crete, the study addresses intersection safety and operation. We will present the preferred alternative and its impacts (including those to the Moeller Woods Forest Preserve, a protected Section 4(f) property), as well as explain why the alternative was selected and ask for your input on our progress.

The project is currently completing the Preliminary Engineering & Environmental Studies phase expected to be completed mid-2025. Plan Preparation & Land Acquisition is estimated to be completed late-2026 with an estimated construction completion in late-2028.

Join Us In-Person:
